

Product Catalogue

21 products · 4 categories · Rs.799 to Rs.24,999

Every device below runs on one platform and one app. Add any product to an existing setup without a second account or a second system. All prices in Indian Rupees and inclusive of applicable taxes unless stated otherwise.

Category	Products	Price range
Safety	10	Rs.799 – Rs.24,999
Home Automation	7	Rs.899 – Rs.3,499
Water Management	3	Rs.1,999 – Rs.3,999
Energy	1	Rs.1,299 – Rs.1,299

Warranty 6 months · Returns 7 days · Free shipping over Rs.999 · Support support@circuvent.com

SAFETY

10 products

Circuvent Motion Sensor

Rs.799

PIR motion sensor — automate lights & get intrusion alerts

MRP Rs.999 save 20%

A battery-powered PIR motion sensor that triggers your Circuvent lights and sends instant intrusion alerts to your phone. Ideal for staircases, entryways, garages and store rooms. Peel-and-stick install in seconds.

- Wide-angle PIR sensing
- Instant phone alerts
- Triggers Circuvent lights
- 6-month battery life
- Adhesive mount
- Adjustable sensitivity

Warranty 6 months · rated 4.5 / 5

Circuvent Guardian

Rs.1,999

Personal safety SOS beacon — help is one press away

MRP Rs.2,999 save 33%

A pocket-sized battery-powered panic button. One press sends your live GPS location by SMS to trusted contacts and places an emergency call — no smartphone app needed on the receiving side. Ideal for students, women, elderly and field workers.

- One-press SOS
- Live GPS location over SMS
- Automatic emergency call
- Rechargeable battery (USB-C)
- Auto-resends while moving
- Works with any phone — no app

Warranty 6 months · rated 4.9 / 5

Circuvent Camera

Rs.2,499

Live view and motion alerts, without a subscription

MRP Rs.3,199 save 22%

A compact Wi-Fi camera that streams live to the app on demand and takes snapshots on request. Motion is detected by comparing frames, so it needs no extra sensor, and a dimmable illuminator LED covers low light. Video is relayed straight to whoever is watching and never stored on our servers, so there is no cloud plan to pay for.

- Live view on demand
- Snapshot on request
- Motion detection, no extra sensor
- Dimmable illuminator LED
- Adjustable resolution & frame rate
- No cloud subscription

Warranty 6 months · New · rated 4.5 / 5

Circuvent Sentinel

Rs.3,499

Gas and climate safety panel that acts, not just alarms

MRP Rs.4,299 save 19%

A wall panel that watches a room and does something about what it finds. A combustible-gas and smoke sensor drives a latching alarm, and on detection the panel cuts the appliances you nominate and starts an exhaust fan — detection without action is only a noise-maker. It also reports temperature and humidity, and its four relays can be driven by the capacitive pads on the front, by a schedule, or from the app. A tap on the panel shows up in the app immediately rather than on the next poll.

- Combustible gas & smoke detection
- 90-second sensor warm-up before arming
- Latching alarm with sustained-reading check
- Cuts nominated appliances, drives an exhaust fan
- Temperature & humidity reporting
- 4 relays with 4 capacitive touch pads

Warranty 6 months · rated 4.8 / 5

Circuvent Smart Lock

Rs.4,999

MRP Rs.6,499 save 23%

Lock & unlock your door from anywhere — with auto-relock

A motorised smart deadbolt you can lock or unlock from the Circuvent app or your voice, with optional auto-relock and a fail-safe locked state after any power interruption. Physical key/knob still works. Ideal for homes, offices and rentals.

- App + voice lock / unlock
- Auto-relock timer
- Fail-safe locked on power loss

- Tamper & activity alerts
- Physical override retained
- Works with Alexa & Google Home

Warranty 6 months · New · rated 4.8 / 5

Circuvent Drone Link

Rs.6,499

MRP Rs.7,999 save 19%

Puts your drone's telemetry, flight log and safety limits online

A companion computer for a drone that already has an ArduPilot or PX4 flight controller. It plugs into a spare TELEM port and puts the aircraft on your Circuvent account: live position, altitude, battery and GPS quality while it flies, a complete flight log afterwards, and a daily report by email. Take-off, landing, return-to-home and stored waypoint missions can be commanded from the console, and a preflight check refuses to arm on a poor GPS fix or a low pack. It does not fly the aircraft — your flight controller does that, and keeps doing it if this link drops. There is deliberately no manual stick control over the internet.

- For ArduPilot or PX4 aircraft
- MAVLink v2 over the TELEM port
- Live telemetry at up to 10 Hz

- Flight log book, exportable as CSV
- Preflight check before arming
- Altitude and range limits held on the aircraft

Warranty 6 months · New · rated 4.5 / 5

Circuvent FaceDoor

Rs.6,999

MRP Rs.8,499 save 18%

PIN, fingerprint or face — with a calling bell built in

A front-door controller that opens an electric strike or deadbolt on a PIN, a verified fingerprint, or a face match from your hub. It boots locked and re-locks itself after a set delay. The calling-bell button raises an event so the hub can capture a snapshot, and every recognised entry can trigger a greeting, the lights or the AC.

- PIN keypad + fingerprint
- Face unlock via the hub
- Fail-secure: locked on boot

- Automatic re-lock
- Calling bell event
- Greeting & scene triggers

Warranty 6 months · New · rated 4.8 / 5

Circuvent ANPR Camera

Rs.8,999

MRP Rs.10,999 save 18%

Reads number plates at your gate, and knows whose car it is

Watches the lane at your gate, detects each vehicle that arrives, and reads its number plate. Known cars are recognised and let straight in; a plate on your block list raises an alert instead. Every arrival is logged with a photograph, so there is a record of who came and when. Plate reading runs on the Circuvent control plane rather than on the camera, and the camera is built for a vehicle that slows or stops at a gate, driveway or parking entry — not for open-road traffic.

- Reads Indian number plates
- Allow, block and watch lists
- Photograph kept with every arrival

- Loop detector or IR beam input
- Watches only the lane you mark
- Opens a barrier on a known plate

Warranty 6 months · New · rated 4.6 / 5

Circuvent RFID Gate

Rs.12,999

MRP Rs.15,999 save 19%

Your gate opens as you drive up — no app, no remote

A long-range UHF reader on the driveway recognises the tag on your windshield and opens the barrier as you approach. Authorised tags are stored on the device, so it keeps working if the internet drops. Guests can be let in with a QR or PIN pass from the hub, and the gate closes itself once the vehicle is clear.

- Long-range UHF windshield tags
- Allowlist stored on the device
- Guest QR / PIN passes
- Auto-close after passage
- Loop detector holds it open
- Every entry logged

Warranty 6 months · rated 4.7 / 5

Circuvent Drone X1

Rs.24,999

MRP Rs.28,999 save 14%

Our own airframe, our own flight stack

A 5-inch quadcopter running Circuvent's own flight stack — our attitude estimator, our control cascade, our mixer, our ESC driver. It arms only when the aircraft is level, calibrated, on a live radio link and above the battery floor, drops into a controlled descent if the radio goes quiet, and cuts power past 75 degrees of tilt. Every flight is logged to your Circuvent account with attitude, battery and timing, alongside any other aircraft you fly. Sold as a development platform: this flight stack is new, and it ships with a commissioning procedure that starts on the bench with the propellers off. Follow it in order.

- Circuvent flight stack, 1 kHz rate loop
- ESP32-S3, control loop isolated on its own core
- 5" props, 4S, DShot300 ESCs
- Arms only when level, calibrated and linked
- Radio-loss failsafe descends under control
- Flights logged to your Circuvent account

Warranty 6 months · Dev platform

HOME AUTOMATION

7 products

Circuvent Smart Light

Rs.899

Dimmable, colour-tunable Wi-Fi light — moods, schedules & voice

MRP Rs.1,299 save 31%

A Wi-Fi smart light with smooth brightness dimming and full-colour control from the Circuvent app or your voice. Set scenes, schedules and wake-up fades, and it remembers its last state after a power cut. Works with Alexa & Google Home.

- Brightness dimming (0–100%)
- 16M colours + warm/cool white
- Works with Alexa & Google Home
- Scenes, schedules & fades
- Remembers last state on power-up
- Manual switch + app control

Warranty 6 months · New · rated 4.7 / 5

Circuvent Smart Plug

Rs.999

Make any appliance smart — Wi-Fi + voice + energy monitoring

MRP Rs.1,499 save 33%

A compact Wi-Fi smart plug that switches any appliance from your phone or voice. Works with Alexa & Google Home, tracks real-time power usage, and keeps a manual button for local control. Flashed with Circuvent firmware and made in India.

- Wi-Fi + phone app control
- Works with Alexa & Google Home
- Live energy / power monitoring
- Manual button + status LED
- Schedules & scenes
- 16A variant for geysers / ACs

Warranty 6 months · rated 4.8 / 5

Circuvent Smart Fan Controller

Rs.1,099

Turn any ceiling fan into a smart, speed-controlled fan

MRP Rs.1,499 save 27%

A retrofit controller that adds app + voice control and multi-speed regulation to your existing ceiling fan. Set speeds, schedules and scenes, and control it hands-free with Alexa or Google Home. Keeps your wall regulator working too.

- 3-speed smart regulation
- App + voice control
- Works with Alexa & Google Home
- Schedules & scenes
- Remembers last state on power-up
- Fits standard ceiling fans

Warranty 6 months · New · rated 4.6 / 5

Circuvent Smart Switch

Rs.1,499

Retrofit Wi-Fi touch switch — control lights & fans from anywhere

MRP Rs.1,999 save 25%

A modular Wi-Fi touch switch that fits behind your existing switchboard and makes up to 4 lights/fans smart — control from the app or voice, set schedules, and keep the physical touch buttons for local control. No visible wiring changes.

- Fits existing switchboard
- Up to 4 gangs
- App + voice control
- Physical touch buttons
- Schedules & scenes
- Neutral-wire design

Warranty 6 months · rated 4.6 / 5

Circuvent Home Hub

Rs.2,499

MRP Rs.2,999 save 17%

The brain that ties your smart home together

A local-first automation hub that runs your scenes and schedules even when the internet is down. Bridges Wi-Fi, BLE and Zigbee devices, with Matter support and an offline voice option.

- Local-first automations
- Wi-Fi + BLE + Zigbee bridge
- Matter compatible
- Works offline
- Scenes & schedules
- Optional offline voice

Warranty 6 months · rated 4.8 / 5

Circuvent Touch Switchboard

Rs.2,999

MRP Rs.3,799 save 21%

Three capacitive gangs with per-board energy metering

A wall switchboard with three capacitive touch pads driving three relays, so it works by touch even when the network is down. A dimmable LED backlight makes it easy to find at night, and built-in metering reports voltage, current, power, power factor and cumulative units for the whole board.

- 3 capacitive touch gangs
- Dimmable LED backlight
- Voltage, current & power metering
- Power factor + kWh totals
- Local touch works offline
- App, scenes & schedules

Warranty 6 months · rated 4.6 / 5

Circuvent Smart Curtain

Rs.3,499

MRP Rs.4,499 save 22%

Open & close your curtains on schedule, tap or voice

A motorised curtain controller that opens and closes to any position from the Circuvent app or your voice. Wake to natural light with sunrise schedules, set scenes, and control it with Alexa or Google Home. Quiet motor, easy retrofit.

- Open / close to any position
- Sunrise / sunset schedules
- App + voice control
- Works with Alexa & Google Home
- Scenes & routines
- Quiet retrofit motor

Warranty 6 months · New · rated 4.6 / 5

WATER MANAGEMENT

3 products

Circuvent AquaGuard

Rs.1,999

Automatic water-tank controller — never overflow, never burn your pump

MRP Rs.2,499 save 20%

Automatically starts your water motor when the tank is low and stops it when full, with built-in dry-run protection so the pump never runs empty. Check the level and control the motor from your phone. Saves water, electricity and your pump.

- Auto motor ON / OFF
- Dry-run pump protection
- Reliable float-switch sensing
- Wi-Fi status + app
- Manual override button
- Single & 3-phase (via contactor)

Warranty 6 months · rated 4.7 / 5

Circuvent Agri GSM Starter

Rs.2,999

Start / stop your farm pump by a call or SMS — no smartphone needed

MRP Rs.3,499 save 14%

A rugged GSM pump starter for farmers: switch your agricultural motor ON/OFF with a missed call or SMS from any phone, get power-availability and dry-run alerts, and protect the pump from voltage faults. Built for the field.

- Call / SMS ON-OFF (any phone)
- Power-availability alerts
- Dry-run & voltage protection
- Single & 3-phase (via contactor)
- Works without internet
- Weather-resistant enclosure

Warranty 6 months · rated 4.7 / 5

Circuvent WaterTank Duo

Rs.3,999

Sump to overhead, filled automatically — no cable to the roof

MRP Rs.4,999 save 20%

Manages a two-tank system: an underground sump and an overhead tank. The tank unit sits on the overhead tank and reports the level down by long-range radio, so there is no sensor cable to run up the building. The controller starts the pump when the overhead tank runs low, stops it once full, and refuses to run when the sump is empty. If the pump draws current but the level does not rise, it cuts the motor before the pump is damaged. And if the tank unit ever stops reporting, auto-fill pauses rather than pumping on an old reading. Live fill percentage and litres for both tanks in the app.

- Two units — tank sensor + pump controller
- Wireless tank sensor, no cable to the roof
- Long-range radio through concrete floors
- Battery tank unit, level reported in the app
- Auto-fill between set levels
- Dry-run trip protects the pump

Warranty 6 months · New · rated 4.7 / 5

ENERGY

1 product

Circuvent Energy Monitor

Rs.1,299

See exactly where your electricity goes

MRP Rs.1,699 save 24%

A clamp-on whole-home energy monitor that streams live consumption to the Circuvent app — spot hungry appliances, set budgets and cut your bill. Non-invasive CT-clamp install, no rewiring.

- Whole-home CT-clamp sensing
 - Live kWh + cost in the app
 - Per-appliance disaggregation
- Budgets & alerts
 - No rewiring required
 - Wi-Fi + cloud history
